TIGER SAFETY

LOCKDOWN

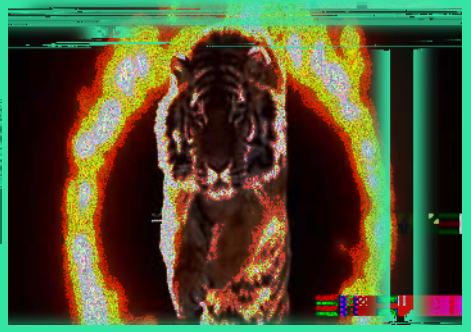
- Clear and lock all doors and windows
- Move out of view of windows or doors
- Check roll and account for all students
- Stay calm and silent
- IGNORE all school bells
- Do not allow any one to leave the classroom/area
- No cell phone or other communication is used

SOFT SHELTER IN PLACE

POTENTIALLY DANGEROUS IN THE COMMUNITY

- Clear all students from halls, fields, and portables
- **Inside activities continue**
- Close all doors and windows
- Do not allow cell phone or other communication devices
- Classroom doors remain locked

FIRE (DRILLS)



- Once the alarm sounds, teachers should grab a current roster and red/green card
- Students should walk in a **QUIET SINGLE FILE** LINE out the closest door to the area designated by their teacher.
- Classroom door remains **UNLOCKED**
- Teachers need to check roll and then hold up a **red** (missing student) OR **green** (all present)card.
- Once the **All Clear** is given students walk back inside in a single file line.

WHEN WE WERE YOUNG

- Think back to some of the decisions you made.. Were there any you would change?
  - For Example: How hard you worked in school, white lies you told, friends you had, etc…
  - Why do we make so many more poor decisions while we are young????
    - Answer: Our BRAIN– Specifically, Frontal Lobe Development

INTERNET SAFETY

- Frontal Lobe Development
  - The function of the frontal lobe involves the ability to project future consequences resulting from current actions, the choice between good and bad decisions (also known as one's conscience),
    - Most experts believe frontal lob **NOT** fully developed until 20 in females and 25 for males. This is why Great kids make *poor* choices..
      - Stories: YOLO (You Only Live Once) cheerleader story, cyber bully, video games all night, Ms. Cox
      - IT can happen to ANYONE- character of child, the relationship you have with your child, etc. (50/50 Nature vs. Nurture)
        - My mom-Barbara Balzer- I still made bad choices, lied, sneaky while I was young.

THIS IS WHY YOU MUST LIMIT ACCESS TO INTERNET

TOO EASY TO ACCESS: SOCIAL MEDIA, TEXTING, PORNOGRAPHY, VIOLENCE

DON'T FORGET ABOUT NATURAL CURIOSITY

DAVID'S LAW

- New state law that went into effect in Summer of 2017.
- Allows schools to discipline students for off campus incidents involving cyberbullying.
- Allows law enforcements to prosecute for cyberbullying. Penal Code 42.07
