# Mr. Paul Andreason Memorial Scholarship

Paul Andreason served as the Dean of Students at the Birdville Center of Technology and Advanced Learning. He had a passion for his career and he genuinely cared for all of the students that he served over the years. His family wanted to keep his legacy alive by awarding scholarships to Career and Technology Education students.

things about real-world situations. It is my goal to open an  
accounting firm. It is my ultimate career objective to help people  
in underdeveloped countries understand their finances and have a  
better life. By taking Dual-Credit Accounting as an elective and  
joining DECA and TAME, I have gained real-world experiences

able to think about anything but engineering. The first time I built a marble coaster, put working code onto a robot and led my team to a surprise victory, made it clear that I wanted to make people feel the same as I did about taking engineering classes. Robotics has been my biggest passion over the past 5 years; it has been a complete escape for me. My goal is to be a software developer for a major tech company. I have leadership skills and knowledge from my computer science classes.

than one. I always knew that I wanted to be a teacher, so I was moti-  
vated to take these classes as soon as I entered high school. While in  
this program, I have met exceptional staff members and students  
within BISD. I have benefited from working with children of various  
ages and understanding how they learn, as well as being mentored by  
many wonderful teachers. It has truly been an honor to be a part of
